Re: Rental Inspection Program Proposal

Dear Mayor Jager and Council Members,

It has come to our attention that the City is again considering a Rental Inspection Program. This is an issue that was proposed in 2009 and it was determined at that time that there are currently codes in place to enforce any violations.

The Humboldt Association of Realtors® respectfully requests that the City carefully consider whether revisiting this issue would be in the best interest of our community, and that public workshops be held prior to the introduction of any new Ordinance that would place additional mandatory regulations on property owners. We thank you for your consideration of this request.

Sincerely,

Kristi Machado
2017 Board President
